

The K12HSN has implemented Codian MCU and IPVCRs on the network. To access content on these boxes you may need to use the far end camera controls (FECC) from your videoconferencing device.

Your remote control should look like the one below.

Click Far button to control the conferences

Use up and down arrows to scroll through conference list.

Use right arrow key to enter a selected conference.

Use \* key to bring up electronic keypad to enter conference numbers or PIN numbers.

When you have properly selected the far end you will see the camera icon in the top right corner of your screen pointing to the far side. Such as this:

When you have properly selected the electronic keypad you will see the keypad in the top right corner of your screen. The keypad should look similar to this:

You can then use the numeric keypad on the remote to enter numbers.
